2.6 Brief explanation of any of the figures in 2.1 to 2.4 above that is necessary to enable the figures to be understood.	The net loss for the Consolidated Group for the financial year after income tax attributable to equity holders of the Parent Entity was \$35,229,788 (2010 loss: \$4,098,768) which was heavily impacted by the impairment of the Kingaroy and other Queensland assets advised in the Half Year accounts at 31 December 2010. Throughout the financial year, the Company has continued to work to obtain the approval of the Queensland Government to permit the recommissioning of the pilot plant at the Kingaroy site in Queensland. A significant amount of Company resources and expenses have been devoted to this. At the same time a range of other potential project opportunities have been investigated, both in Australia and overseas, to provide scope for diversification of the Company's activities and reduction of its project risk profile.
